

# Xentel Trec Exprez

is a 4 Line Stand alone recording system for analog

line. It is specially designed for trading firm, stock agent, customer service centre.

Different from other TREC series, Trec **Exprez** supports SD card as storage media instead of HDD.

All the functions can be operated directly by **Exprez** touch pad. Just click the screen **Exprez** will guide you to the configuration, records searching, live monitoring and playback of the phone conversation.

**Exprez** can be controlled through LAN and internet, it accomplishes all the functions of **Exprez** family as well. Easy to install, no PC required, database system secured. **Exprez** is another solution for enterprises that require professional recording equipment.
